- Day 10 End tour**
 - › La Mariscal artisanal craft market visit
 - › Fly home

Considered the foundation for evolutionary biology, **On the Origin of Species by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life** was published by Charles Darwin on **November 24, 1859**. The theories Darwin proposed in this book changed scientific study across the globe indefinitely.

Be inspired by the diversity of the Galápagos Islands on a tour to Latin America.
